TOOL HIRE • TRAINING • ACCESS HIRE • INSPECTIONS

WE PROVIDE

TOOL & EQUIPMENT HIRE

Our extensive range of tool hire equipment includes specialist divisions in Confined Space equipment and Floor Preparation tools and equipment. Our staff are always on hand to answer any questions you may have to help you choose the right equipment for the job.

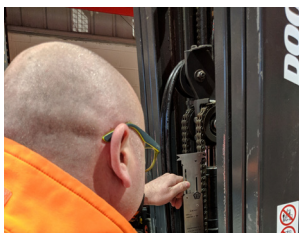

POWERED ACCESS HIRE

A separate powered access division with a range of cherry pickers, scissor lifts and internal access equipment delivered by a fleet of vehicles and FORS trained drivers to sites in Essex, London, Kent and most of the South East.

TRAINING

We provide training services including IPAF, PASMA, confined space and first aid. A full list of training courses we provide can be found at www.mark1training.co.uk. On-site training can be arranged or you can visit our training centres in Southend and Chelmsford.

INSPECTIONS

To keep your equipment safe to use Mark One can provide LOLER inspections and thorough examinations in Southend, Essex, London and the surrounding counties at a date and time to suit your requirements, including weekends.

010083	Safety Tread	£5.00	£2.00	£9.00

GRP LADDERS & STEPS

These ladders are made from tough, robust, lightweight fibre glass making them non-conductive. This means they are safe when working around areas where there may be a danger of an electric current.

They are ideal for use by electricians, railway workers and any areas where there may be a danger of electricity.

All prices shown exclude VAT. Long term rates must be agreed at time of hire, we offer a 4 week hire rate. Deposit required. Contact us for more details.

IS YOUR EQUIPMENT LEGAL AND SAFE?

Health and safety law including the Provision and Use of Work Equipment Regulations 1998 (PUWER) and the Lifting Operations and Lifting Equipment Regulations 1998 (LOLER) require equipment to be regularly examined to be kept safe.

To keep your equipment safe to use Mark One can provide LOLER inspections and thorough examinations at a date and time to suit your requirements, including weekends.

FIND OUT MORE AT
www.mark1hire.co.uk/inspections

IPAF CATEGORIES

There are 3 categories of Mobile Elevated Work Platforms (MEWPs) that help group different types of MEWP by how they are set up and operated.

STATIC MEWPs

1a Static Vertical

1b Static Boom

These MEWPs are categorised as Static MEWPs because travelling is only allowed when it is in the lowered transport position.

These MEWPs have stabilising legs that need to be deployed before raising the platform.

MOBILE MEWPs

3a Mobile Vertical

3b Mobile Boom

In these Mobile MEWPs travelling is allowed with a raised platform and the travelling is controlled from a point at the work platform.

This means that travelling can be performed when at height.

PAV (PUSH AROUND VERTICAL)

Push around verticals have to be pushed into position, are only capable of vertical lifting and cannot be moved along the ground when elevated. They can have scissor, sigma, or vertical mast lift mechanisms.

Operators holding a current IPAF PAL card with either a 1a or 3a category on it are permitted to operate PAVs, with familiarisation.

IPAF LOAD / UNLOAD

Our one-day IPAF Load / Unload course is designed to address the needs of those who are responsible for the safe loading and unloading of Mobile Elevating Work Platforms (MEWPs) on all forms of vehicles.

WEEKDAY

No. of Machines	Price per person
1-2	£190.00
3	£185.00

4	£210.00

ONSITE TRAINING AVAILABLE - PLEASE CONTACT US FOR MORE DETAILS

IPAF MEWPs FOR MANAGERS

Our one day IPAF MEWPs for Managers training course is designed to address the needs of managers and supervisors in preparing for and safely co-ordinating the use of various types of Mobile Elevating Work Platforms (MEWPs) within their control, including scissor lifts, self-propelled boom lifts, vehicle-mounted booms, trailer mounted boom lifts and aerial work platforms.

WEEKDAY

ONSITE TRAINING AVAILABLE - PLEASE CONTACT US FOR MORE DETAILS

All prices shown exclude VAT.

IPAF DEMONSTRATOR

Our one-day IPAF Demonstrator course is for anyone who is required to familiarise MEWP operators with their responsibilities, demonstrate pre-operational and safe operating procedures. All delegates wishing to attend this course must have a prior working knowledge of MEWPs and hold a valid IPAF PAL Operator card in the category that they wish to undertake at Demonstrator level.
